

AFRA NASIRIN

B.Tech Information Technology • 3rd Year • Full Stack Development & AI

+91 73970 61354 | afranasirin@gmail.com | github.com/afranasirin-bit | @afranasirin78

PROFILE

Motivated B.Tech Information Technology student with an interest in full-stack web development, artificial intelligence, cloud computing and practical software projects. Enjoys learning by building real-world applications and developing clean, user-focused digital experiences.

TECHNICAL SKILLS

Programming	JavaScript, Python, Java, SQL	Web	HTML, CSS, React.js, Node.js, Express.js
Tools	Git, GitHub, Docker, Vite	AI / Cloud	Scikit-learn, Cloud Computing, CloudSim

PROJECTS

Railway Maintenance Optimizer

AI-assisted railway maintenance scheduling concept using React, Node.js/Express, Python, Scikit-learn and OR-Tools. Focuses on risk prediction, railway constraints and schedule optimization.

ClassiHub – Classifieds Web Application

Full-stack application concept for buying and selling used products, with a modern responsive interface, product listings and user-focused flows using React and Node.js/Express.

Cloud Computing / Scheduling Project

Academic project exploring cloud simulation, resource scheduling and container-based concepts using CloudSim, Java and Docker.

EDUCATION

B.Tech – Information Technology

Mount Zion College of Engineering and Technology

2024 – Present

3rd Year

AREAS OF INTEREST

Full Stack Development • Artificial Intelligence & Machine Learning • Cloud Computing • Web Applications • Problem Solving • Software Projects
